

SYMBIOSIS INSTITUTE OF TECHNOLOGY, NAGPUR

Symbiosis International (Deemed University)

(Established under section 3 of the UGC Act, 1956)

Re-accredited by NAAC with 'A++' Grade | Awarded Category – I by UGC

Founder: Prof. Dr. S. B. Mujumdar, M. Sc., Ph. D. (Awarded Padma Bhushan and Padma Shri by President of India)

Practical No.: 7

Aim –

Perform DOM traversal and updates; develop a To-Do List application with add, edit, and delete features. Implement a registration form using JavaScript event handling and form validation.

Software/Tools Required –

VSCode, Chrome, HTML5, CSS3, Javascript (ES6)

Experiment Program Code –

index.html

```
<!DOCTYPE html>
<html lang="en">

<head>
  <meta charset="UTF-8">
  <meta name="viewport" content="width=device-width, initial-scale=1.0">

Output –

The screenshot shows a web browser window with the title 'Create Account'. The address bar displays the file path: `C:/Users/SANSKRUTI/Downloads/Javascript/practical%207/case%20study/index.html`. The page features a dark blue sidebar on the left with the text 'Begin something new today.' and an illustration of a person at a desk. The main content area is a white form titled 'Create Account' with the subtitle 'Fill in your information below'.

The form is divided into two sections: 'PERSONAL INFORMATION' and 'ACCOUNT DETAILS'.

PERSONAL INFORMATION

- First Name ***: Input field with value 'First name'. Error message: 'First name is required.'
- Last Name ***: Input field with value 'Last name'. Error message: 'Last name is required.'
- Birthday ***: Three dropdown menus for Day, Month, and Year. Error message: 'Please select your complete birthday.'

ACCOUNT DETAILS

- Username ***: Input field with value '@ Username'. Error message: 'Username is required.'
- E-mail ***: Input field with value 'name@email.com'. Error message: 'Email address is required.'
- Website ***: Input field with value 'https://example.com'. Error message: 'Website is required.'
- Password ***: Input field (empty).
- Re-password ***: Input field (empty).

The browser's taskbar at the bottom shows the system clock as 22:54 on 01-09-2026, with a temperature of 26°C and 'Mostly cloudy' weather.

The screenshot shows the same web browser window, but the form is now filled with data. The 'Create My Account' button is visible at the bottom of the form.

PERSONAL INFORMATION

- First Name ***: Input field with value 'sanskriti'.
- Last Name ***: Input field with value 'gore'.
- Birthday ***: Three dropdown menus with values '12', 'February', and '2013'.

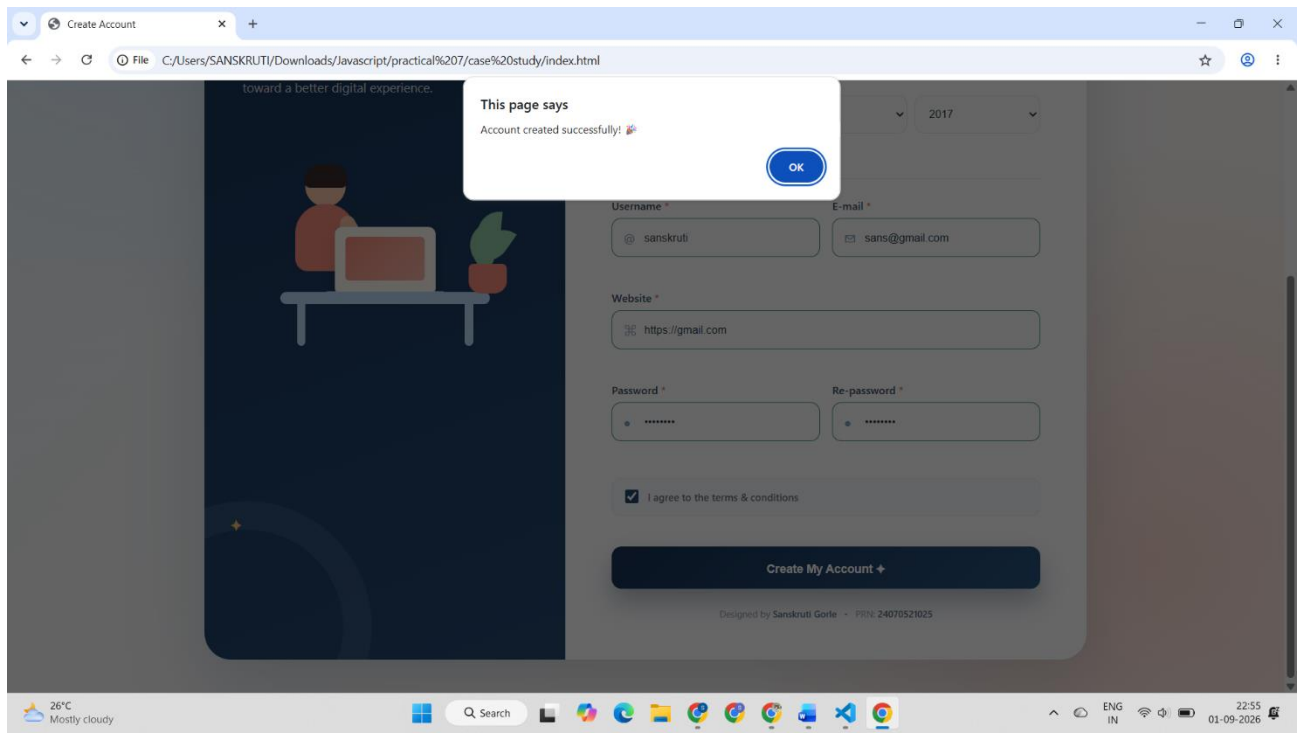

ACCOUNT DETAILS

- Username ***: Input field with value 'sars'.
- E-mail ***: Input field with value 'sars@gmail.com'.
- Website ***: Input field with value 'https://abcd.com'.
- Password ***: Input field with value 'password'.
- Re-password ***: Input field with value 'password'.

Below the password fields, there is a checkbox labeled 'I agree to the terms & conditions' which is checked.

At the bottom of the form, there is a dark blue button labeled 'Create My Account +'. Below the button, the text 'Designed by Sandeep Gore - PIN: 2487952925' is visible.

The browser's taskbar at the bottom shows the system clock as 22:56 on 01-09-2026, with a temperature of 26°C and 'Mostly cloudy' weather.

Conclusion –

The experiment was successfully performed to understand DOM traversal, manipulation, event handling, and form validation using JavaScript. A To-Do List application with Add, Edit, and Delete features was developed, and a registration form was implemented with dynamic validation and error handling.
